Summary

Full-stack engineering leader with 8.5+ years of experience building scalable MERN/MEAN SaaS applications for global clients. architecting cloud-native solutions (AWS/Azure), and acting as a trusted technical bridge between engineering and business stakeholders. Delivered 10+ production systems serving 500K+ users with 99.8% uptime.

Skills

Frontend: React, Angular, Next.js | TypeScript, HTML/CSS | Tailwind, MUI, ShadCN | Zustand, Redux | Flutter, Ionic

Backend: Node.js, Express | REST, GraphQL | JWT, OAuth | Zod, Swagger/OpenAPI

Databases & Caching: PostgreSQL, MongoDB | Redis | Prisma

Cloud & DevOps: AWS, Azure, Firebase | Docker, GitHub Actions | Git, Postman, SonarQube | Google Analytics

Architecture: Monolithic, Modular Monolith, Microservices

Process & Leadership: Agile/Scrum | Jira, Roadmapping | Code Reviews, Mentoring | Stakeholder Management

Work Experience

Tredence, Bangalore

May 2022 - Present

Associate Manager

- Architected and delivered 5+ full-stack B2B SaaS platforms (React, Node.js, AWS) that generated \$3.8M+ in combined client contract value, consistently shipping on schedule with 95%+ client satisfaction and zero critical post-launch defects across 18 months,.
- Led frontend and backend development with a focus on best practices, architectural integrity, performance-optimized system design, and high-quality, maintainable code.
- Acted as the primary technical point of contact for clients; managed expectations, gathered requirements, and ensured alignment between business goals and engineering output.

Aspire Systems, Chennai

Jan 2021 - April 2022

Senior Software Developer

- Built and maintained sales automation platforms for broadband providers serving 500,000+ customers, using Angular 10, AWS Lambda, and MongoDB to monitor sales and optimize operational workflows.
- Improved system efficiency by streamlining data pipelines and enhancing UI responsiveness, reducing manual reconciliation effort by 30%.

Mobinius, Bangalore

July 2020 - Dec 2020

Senior Software Developer

- Collaborated cross-functionally with product, operations, and QA teams to develop inventory and POS systems for the transport industry, automating order tracking and delivering scalable REST APIs within Agile workflows.
- Boosted system reliability and transaction accuracy through robust backend logic, significantly reducing operational delays.

NextONTOP HI-Tech SoftSolutions, Bangalore

July 2017 - June 2019

Senior Application Developer

- Led a team of 4 in designing and developing the product The Casttree, a talent portal for filmmakers, artists, and performers, utilizing Angular 6, SailsJS, and MongoDB.
- Created a new system design for APIs and developed robust backend business logic to ensure seamless feature integration.
- Designed, developed, and deployed a production-ready mobile application in 10 days to the Google Play Store.

Education

Sri Ramakrishna Engineering College, Coimbatore

June 2013 - April 2017

B.Tech in Information Technology

CGPA: 7.5/10

Awards and Achievements

- Published **npm package** [not-payouts-razorpayx](#) (Jan 2020): Enabled automated bulk payouts via RazorpayX, streamlining financial workflows for SaaS applications.
- Received **4 “Pat on the Back” Awards at Tredence (2022–2024)** for **outstanding contributions to project efficiency and innovation**.
